

ROBIN DES BOIS
VS
BIGFOOT

RÈGLES

THE UNMATCHED SYSTEM

Unmatched is a miniatures dueling game featuring fighters of all kinds — from the page to the screen to the stuff of legends. Each hero has a unique deck of cards that fits their fighting style.

You can mix and match fighters from any Unmatched set. But remember, in the end, there can only be one winner.

CONTENTS

2 HERO MINIATURES

60 ACTION CARDS

3 HEALTH DIALS

2 CHARACTER CARDS

5 SIDEKICK TOKENS

1 DOUBLE-SIDED BOARD
WITH **2** BATTLEFIELDS

4 ROBIN HOOD

- ▷ 30 action cards
- ▷ 1 Robin Hood hero miniature
- ▷ 1 Robin Hood character card
- ▷ 4 Outlaw sidekick tokens
- ▷ 1 health dial

BIGFOOT

- ▷ 30 action cards
- ▷ 1 Bigfoot hero miniature
- ▷ 1 Bigfoot character card
- ▷ 1 Jackalope sidekick token
- ▷ 2 health dials

Before you play for the first time, assemble the health dials by punching out the two circles for each character and connecting them with a rivet.

HEROES & SIDEKICKS

All of your characters in the battle are called your **fighters**, but your primary fighter is called your **hero**. Heroes are represented by miniatures that move around on the battlefield.

Your other fighters are called **sidekicks**. Most heroes have a single sidekick, some heroes have multiple sidekicks, and still other heroes have no sidekick at all. Sidekicks are represented by tokens that move around on the battlefield.

Each hero has a **special ability** noted on their character card. This card also lists your fighters' **stats**, including the **starting health** of your hero and their sidekick. Fighters' health is tracked on separate health dials. Fighters cannot gain health higher than the highest number on their health dial.

If your hero has multiple sidekicks, each sidekick only has one health (unless otherwise specified). The character card instead lists the total number of sidekicks.

HOW TO PLAY

Players take turns maneuvering their fighters on the battlefield, playing schemes, and attacking their opponent's fighters. To win, you must be the first to defeat your opponent's hero, which happens when they are reduced to zero health.

NOTE These setup instructions and the following rules are for games with **2 players**. For rules on team play with 3 or 4 players, see page **15**.

SETUP

1. Choose a battlefield and place it on the table.
2. Each player chooses a hero and takes the corresponding 30 action cards, character card, hero miniature, sidekick tokens, health dials, and any other components for their hero.
3. Each player sets their hero's starting health and their sidekick's starting health on the matching health dials. Starting health is found on the character cards. (Sidekicks without a health dial have only one health each.)
4. Each player shuffles their action cards to form a single deck and places it face down, then draws **5** cards as their starting hand.
5. The younger player places their hero in the **1** space on the battlefield. Then they place their sidekicks in separate spaces within the same zone as their hero. If their hero is in a space that is part of multiple zones, their sidekicks may be in any of those zones. If you have to make a decision about your fighter at the beginning of the game, make it now. (There are none in this set.)
6. The older player places their hero in the **2** space on the battlefield, then places their sidekicks based on the same rules as in **step 5**.
7. The younger player takes the first turn.

06

SPACES AND ZONES

The battlefield is made up of circular **spaces** that the fighters will move between. Each space can only contain one fighter at a time.

Two spaces connected by a line are **adjacent**. Adjacency is used to determine targets of attacks and various card effects.

The spaces of the battlefield are divided into **zones**, which are indicated by different colored patterns. All spaces with the same colored pattern are part of the same zone (even if they are in different parts of the battlefield).

If a space has multiple colored patterns, it is considered to be part of multiple zones. Zones are used to determine targets of ranged attacks and various card effects.

YOUR TURN

On your turn, you **must take 2 actions**; you cannot skip an action. You may choose two different actions or the same action twice.

The possible actions are:

- ▷ **MANEUVER**
- ▷ **SCHEME**
- ▷ **ATTACK**

You have a **hand limit** of **7** cards. At the end of your turn, if you have more than **7** cards in your hand, you must discard down to **7** cards, placing any discarded cards in your discard pile.

Then it is your opponent's turn.

ANATOMY OF A CARD

A overall card type:

Attack

Defense

Scheme

Versatile

(attack or defense)

B attack or defense value (if any)

C fighter allowed to use the card

D name of the card

E effect when played (if any)

F BOOST value

G deck that the card appears in

H number of copies in the deck

Each hero's deck is different, though they may share some cards with other heroes' decks.

ACTION: MANEUVER

When you take the **maneuver** action, you first draw the top card of your deck, then you may move your fighters.

STEP 1: DRAW A CARD (MANDATORY)

Draw the top card of your deck and add it to your hand.

You can have more than **7** cards in your hand during your turn, but you must discard down to **7** cards at the end of your turn.

DRAWING CARDS

Drawing cards — whether via the maneuver action or due to a card effect — is mandatory, unless otherwise specified.

When your deck is empty, your fighters are exhausted. If you need to draw a card while your fighters are exhausted, do not reshuffle your discard pile. Instead, each of your fighters immediately takes 2 damage.

STEP 2: MOVE YOUR FIGHTERS (OPTIONAL)

Your character card lists your **move** value. During this step, you may move each of your fighters, one at a time, a number of spaces equal to or less than your move value. You may also choose to **BOOST** your movement (see next page).

When you move a fighter, each space they move into must be adjacent to their previous space. You **may** move a fighter through spaces occupied by other friendly fighters (i.e., your own fighters) but they cannot end their movement in an occupied space. You may **not** move a fighter through spaces occupied by opposing fighters.

You may move your fighters in the order of your choice, but must finish each fighter's move before starting the next. You are not required to move all of your fighters the same distance as each other; you get to choose for each fighter. You are allowed to move a fighter zero spaces.

NOTE If an effect ever lets you move your opponent's fighters, you must respect all of the same movement rules, but from your opponent's perspective.

BOOST

When you take the **maneuver** action, you may **boost** your movement. To do this, discard 1 card from your hand and add that card's BOOST value to your movement value. Ignore any effect on the discarded card.

Certain effects (like Robin Hood's Ambush card) allow you to boost other things, such as the value of an attack.

Cards that can no longer legally be played — because the corresponding fighter or fighters have been defeated — may still be discarded from your hand to boost.

10 ACTION: SCHEME

When you take the **scheme** action, you choose a scheme card (indicated by the ⚡ icon) from your hand and play it onto the table, face up.

You must declare which of your fighters is playing the scheme card; they are the **active** fighter. Each card in your deck indicates which fighters are allowed to play it. You may not play a scheme card if the listed fighters are defeated.

Resolve the card's effect, then place the card into your discard pile.

DISCARD PILES

Maintain your own discard pile. All cards, once played and resolved, should be placed in the discard pile. Keep your discard pile face up to differentiate it from your deck. Both you and your opponent are allowed to look through your discard pile at any time.

ACTION: ATTACK

When you take the **attack** action, you must declare which of your fighters is performing the attack; they are the **active** fighter. You may not take the attack action if you do not have an attack card in hand or if none of your fighters have valid targets to attack.

STEP 1: DECLARE TARGET

Any fighter may target a fighter in an adjacent space, regardless of what zone they are in.

Fighters with **melee** attacks (indicated by the  icon) may only target a fighter in an adjacent space.

Fighters with **ranged** attacks (indicated by the  icon) may target an adjacent fighter **or** they may target a fighter anywhere in the same zone, regardless of adjacency.

STEP 2: CHOOSE AND REVEAL

As the attacker, you must choose an attack card from your hand and play it face down in front of you; it must be a card that your attacking fighter is allowed to use. Then the defender **may** (but is not required to) choose a defense card from their hand and place it face down in front of them; it must be a card that their defending fighter is allowed to use. Once both players have chosen their cards, reveal them at the same time.

VERSATILE CARDS

Cards with the  icon are **versatile** cards. They can be used as attack cards or defense cards. Versatile cards also count as both attack cards and defense cards for the purposes of other game effects.

ACTION: **ATTACK** (CONTINUED)

STEP 3: RESOLVE COMBAT

Most cards have effects, with labels indicating when they occur: **IMMEDIATELY**, **DURING COMBAT**, or **AFTER COMBAT**. Unless otherwise specified, card effects are mandatory (which can result in dealing damage to your own fighters or other negative effects).

If two effects would ever appear to resolve at the same time, the defender's effect resolves first.

After cards have been revealed, resolve any effects that occur **IMMEDIATELY**. Then resolve any effects that occur **DURING COMBAT**.

Then determine the result of the combat. The attacker deals **damage** to the defender equal to the value of their played attack card. If the defender played a defense card, subtract the value of their played defense card first. For each damage that the defender takes, reduce that fighter's health by one, adjusting their health dial accordingly.

After the result of the combat has been determined, resolve any card effects that occur **AFTER COMBAT**. Even if a player's fighter is defeated during the combat, as long as that does not trigger the end of the game, any **AFTER COMBAT** effects of their played card still resolve.

After card effects are resolved, resolve any other game effects that occur after combat, such as a hero's special ability.

Finally, all played cards are placed in their respective discard piles.

12

WINNING THE COMBAT

Some AFTER COMBAT effects check to see who won the combat.

The attacker won the combat if they dealt at least one damage to the defender from the attack itself (i.e., not from any effects).

The defender won the combat if they took no damage from the attack itself (even if they took damage from effects).

COMBAT EXAMPLE

Rebecca is playing Robin Hood.
Bob is playing Bigfoot.
It's Rebecca's turn, and she wants to attack Bigfoot.

Rebecca attacks Bigfoot with one of her Outlaws. She can't play **Piercing Shot** (it's a Robin Hood card only, and Robin Hood is not in Bigfoot's zone) and **Defenders of Sherwood** is a defense card. She plays **Wily Fighting** as her attack card, face down.

Bob plays **Skirmish** as his defense card, face down.

There are no **IMMEDIATELY** or **DURING COMBAT** effects. **Wily Fighting** has a lower value than **Skirmish**, so the attack deals no damage. Bigfoot wins the combat (for taking no damage).

Both cards have **AFTER COMBAT** effects. The defender (Bigfoot) resolves first. Bob moves the Outlaw 2 spaces away.

Now, **Wily Fighting** resolves. Rebecca deals 1 damage to all enemy fighters adjacent to the Outlaw. However, there is no adjacent fighter now, so the effect deals no damage.

DEFEATING A FIGHTER

When one of your fighters is reduced to zero health, for any reason, they are **defeated**.

If your hero's sidekick is defeated, immediately remove that sidekick token from the battlefield. (A sidekick without a health dial only has 1 health and is defeated if they take any damage.)

If your hero is defeated, you immediately lose the game.

WINNING THE GAME

14

When your opponent's hero is defeated, which happens when they are reduced to zero health, the game ends immediately and you win!

(In a team game, both opposing heroes must be defeated.)

TEAM PLAY

NOTE: You cannot use Team Play rules with just the Robin Hood vs. Bigfoot set. You will need more figures and maps that have  and  spaces.

You can play Unmatched in **teams of 2**. Teammates sit next to each other on the same side of the battlefield, and they may communicate about their cards and tactics, but each player controls their own hero and sidekicks. Your teammate's fighters are considered friendly fighters. For team play with three players, one player will control both heroes and sidekicks for one team.

Choose a battlefield with four starting spaces. *(Some battlefields have only two starting spaces and therefore cannot be used for team play.)*

During setup, players place their heroes in alternating order:

- ▷ First player on Team **A** places their hero in the  space.
- ▷ First player on Team **B** places their hero in the  space.
- ▷ Second player on Team **A** places their hero in the  space.
- ▷ Second player on Team **B** places their hero in the  space.

When placing their hero, each player also places their sidekicks within the same zone, as normal.

During the game, players take turns in alternating order:

- ▷ First player on Team **A** takes their turn.
- ▷ First player on Team **B** takes their turn.
- ▷ Second player on Team **A** takes their turn.
- ▷ Second player on Team **B** takes their turn.

This order repeats for the rest of the game.

When a player's hero is defeated, immediately remove that hero miniature from the battlefield. That player still takes their turns as normal, as long as they have at least one sidekick left. If all of a player's fighters are defeated, they are eliminated and do not take any more turns.

When both heroes on one team have been defeated, the opposing team wins!

ICON REFERENCE

This card can only be used to attack.

This card can only be used to defend against an attack.

This card can be used to attack or defend.

As an action, this card can be played for its effect.

This fighter may make ranged and melee attacks.

This fighter may only make melee attacks.

CREDITS

Unmatched is a "wonder twins" production by Restoration Games and Mondo Games (we're Jayna!), which was restored from *Star Wars: Epic Duels*, designed by Craig Van Ness and Rob Daviau, and published by Milton Bradley. Zone rules inspired by the Pathfinding System from *Tannhäuser*, designed by William Grosselin and Didier Poli and published by Fantasy Flight Games.
