

GET ON BOARD SOLO VARIANT

Getting stood up in the most romantic cities in the world is never fun. To cheer you up, play a solo game of *GET ON BOARD - Paris & Roma* with the rules described below!

Play using the normal rules with the following changes:

GAME ELEMENTS AND SETUP

- 3 Use the Rome map.
This map has speedy route sections that facilitate Connections.
- 4 Shuffle the 6 Common Objective cards, then place 1 randomly on **each of the 3 spaces**, yellow side up.

- 7 Take all 12 Metro Ticket cards, shuffle them, and make a face down deck on the dedicated space on the board. Take both the 1st and 2nd Rush Hour cards and place them respectively after the 9th and 11th Metro Ticket cards.

GAMEPLAY OVERVIEW

1 NEW METRO TICKET

When the 1st Rush Hour card appears on top of the deck, immediately flip over the 1st Common Objective to its blue side, if it hasn't been flipped yet (before continuing to step 2). When the 2nd Rush Hour card is revealed, do the same thing with the 2nd Common Objective card.

The 3rd Common Objective is flipped to its blue side only if you complete it.

EXAMPLE: You reveal the 9th Metro Ticket card. The 1st Rush Hour card is visible on top of the deck. The 1st Common Objective card is still on its yellow side, so you flip it to its blue side. You then return the Rush Hour card to the box and continue your turn with the Ticket revealed this turn.

END OF THE GAME

Count your final score as described in the rulebook. Compare your score with the table below to judge your performance.

SCORE

71 or more victory points

64 to 70 victory points

57 to 63 victory points

50 to 56 victory points

49 or fewer victory points

PERFORMANCE

As the new Secretary of Transportation, a Metro stop has been renamed in your honor!

People are talking about your renowned Metro network all around the world!

Despite a few hiccups, traffic is smooth and commuters are satisfied. Good job!

There's still work to do, but things are moving. On average, your passengers are only one hour late to their destinations.

"Skip the Metro, go by bike." Congrats, you convinced the whole city to abandon public transportation.

HARD MODE

If reaching the top of the leaderboard is an easy feat for you, play with the Paris map. Achieving such a high score may be more of a challenge, since the Paris map does not have any speedy route sections, and it only has 2 Common objective cards.
